ACCREDITATION RECOMMENDATIONS
OF
ED ARGENBRIGHT
Superintendent of Public Instruction
for the
BOARD OF PUBLIC EDUCATION
for the
School Year
1986-87

DEFINITIONS

Montana Accreditation Symbols

- R - Regular Accreditation: School meets minimum standards; deviations from standards are of a minor nature. Regular accreditation is for one year.
- A - Accreditation with Advice: School exhibits serious and/or numerous deviations from minimum standards; improvement is expected within the ensuing school year. Should a school be recommended for Advice a second or succeeding years, the local school board must adopt and submit a school improvement plan to the Superintendent of Public Instruction by August 1 of the ensuing school year. This plan must show a systematic procedure for the correction of deviations noted.
- P - Accreditation on Probation: School continues to have serious and/or numerous deviations from standards or has substantially increased the seriousness of deviations over the previous year. If a school is recommended for Probation, the local school board must adopt and submit a written school improvement plan to the Superintendent of Public Instruction by August 1 of the ensuing school year. This plan must show a systematic procedure for the correction of deviations noted.
- N - Non-accredited: School fails to have improved after receiving accreditation with advice or accreditation on probation.

Explanation of School Organization

Elementary School: A maximum grade span for accreditation purposes of K-8.

Middle School: An organizational unit composed of any combination of grades 4-8.

Junior High Schools: Include grades 7-9.

High Schools: Grades 9-12 or 10-12.

DEFINITIONS, continued

Northwest Association Accreditation Symbols

- A - A school is classified as "Approved" when it equals or exceeds the standards of the Association.
- AD- A school is classified as "Advised" when it deviates from one or more standards.
- W - A school is classified as "Warned" when it substantially deviates from one or more standards. Warning is usually issued after a school has been advised and the deviation persists.
- P - A school is classified as "Provisional" when it has made an initial application for membership in the Association and has not yet completed the self-evaluation and team visitation.
- D - School is dropped from Northwest Association.

There are numerous problems with the existing facilities, both in terms of updating electrical, plumbing and heating elements and in providing space. The play area is paved asphalt and is extremely small in size and is shared with the high school. The buildings are not barrier free. The 1919 building has very limited space for a teacher facility in an area dominated by heating equipment which has asbestos lining and plumbing leaks. Restroom facilities are not provided for both sexes on all floors in the building.

There are numerous instances in the two primary elementary buildings in which fire codes are not met. Due to the nature of the building and limited exit, this presents a major potential safety problem.

There is no provision for a special room with the necessary equipment for emergency nursing care.

Minimal essential facilities are not available and readily accessible for all students.

The high school art program is housed in the basement of the older elementary building and also is used for grades 7 and 8. In addition to the presence of asbestos-lined heating pipes in the basement area, the kiln is not vented.
